2018 Streets Project

As paving occurs in your neighborhood, please remember it is very important to stay off the street until the contractor opens it up again. Parking will be restricted.

Final lawn restoration will take place the third week of May.

Important Information:

Work zones have many moving parts including, flaggers, reduced speed limits, no parking zones and lane restrictions which all create the need for motorists to be aware of their surroundings to prevent accidents.

The DrivingChange team reminds motorists to slow down in work zones.

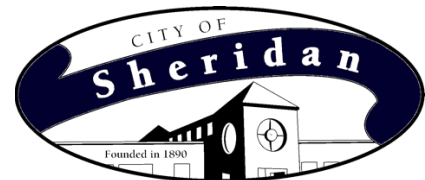

- Watch for signage to direct you through the construction zone
- Always be on high alert for construction traffic through the area
- Avoid distractions and drive slow
- Follow flaggers' instructions

The DrivingChange team reminds residents to shut off their irrigation system when construction work is located near their home. If damage occurs to a resident's sprinkler system due to DrivingChange construction work, the contractor will be returning within two week to repair the damage.

DrivingChange Benefits

The purpose of DrivingChange is to enhance our community through a series of reconstruction projects addressing street, bridge, drainage and stormwater issues. Improving the condition of our streets will:

- Improve vehicle and pedestrian safety
- Improve safety and effectiveness of emergency responders
- Reduce wear and tear on vehicles
- Potential to strengthen property values
- Provide greater opportunity to attract and retain businesses
